

No. 170101	XLPE Cable 0.6/1kV
	Voltage: 0.6/1kV Standard:IEC 60502, IEC 60228, IEC 60332, GB/T 12706.1-2008 Applications: For laying indoors and outdoors. Able to bear certain traction during installation, but not external mechanical forces. Laying single core cable in magnetic ducts is not allowed.
No. 170102	XLPE Cable 3.6/6kV - 26/35kV
	Voltage: 3.6/6, 6/10, 8.7/15, 12/20, 21/35, 26/35kV Standard: IEC 60502, IEC 60228, IEC 60332, GB/T 12706.1-2008 Applications: For laying indoors and outdoors. Able to bear certain traction during installation, but not external mechanical forces. Laying single core cable in magnetic ducts is not allowed.
No. 170201	AL/PVC/PVC 0.6/1kV
	Voltage: 0.6/1kV Standard:IEC 60502, IEC 60228, IEC 60332, GB/T 12706.1-2008 Applications: Suitable for use in power distribution lines or fixed installations with rated voltage up to 0.6/1 kV indoor/outdoor, enclosed in conduit, in underground duct where not subject to mechanical damage.
No. 170202	CU/PVC/PVC 0.6/1kV
	Voltage: 0.6/1kV Standard: IEC 60502, IEC 60228, IEC 60332, GB/T 12706.1-2008 Applications: Suitable for use in power distribution lines or fixed installations with rated voltage up to 0.6/1 kV indoor/outdoor, enclosed in conduit, in underground duct where not subject to mechanical damage.
No. 170203	CU/PVC/SWA/PVC, AL/PVC/SWA/PVC 0.6/1kV
	Voltage: 0.6/1kV Standard:IEC 60502, IEC 60228, IEC 60332, GB/T 12706.1-2008 Applications: Suitable for use in power distribution lines or fixed installations with rated voltage up to 0.6/1 kV. Apply to shafts, water and soil, able to bear the larger positive pressure.
No. 170204	CU/PVC/STA/PVC, AL/PVC/STA/PVC 0.6/1kV
	Voltage: 0.6/1kV Standard:IEC 60502, IEC 60228, IEC 60332, GB/T 12706.1-2008 Applications: Suitable for use in power distribution lines or fixed installations with rated voltage up to 0.6/1 kV. Suitable for burying in ground, Able to bear external mechanical forces but large pulling forces.
No. 170301	Fire Resistant Cable
	Voltage: 0.6/1kV Standard:IEC 60331 , GA 306.2-2001, GB12706-91 Applications: Used for applications requiring circuit integrity during a

No. 170701	Control Cable 450/750V, 0.6/1kV
	Standard: GB/T9330-2008 Applications: Used as an interconnecting cable in signal and control equipment – for measuring, control or regulation.
No. 170801	Instrument Cable 300/500V
	Standard: Q/ILXD30.1~4, equal to BS5308-86 Applications: Used in process controls, transmission of signals, computers, control systems and monitor networks as well as in intrinsically safe systems in hazardous areas like petrochemical plants and thermal power plants.
No. 170901	Welding Cable
	Standard: IEC 60245-6: 2003, GB5013-2008 Applications: For the transmission of high currents from the electric welding machine to the welding tool.
No. 171001	300/500V Rubber cable for coal mining electric drill
	Voltage: 300/500V Standard:MT-818-2009 Applications: Used as power connection for coal mining electric drill of rated voltage 0.3/0.5kV.
No. 171002	Non-metallic shielding flexible rubber cable with
	Voltage: 8.7/10kV below Standard:MT-818-2009, Q/ILXD37-2009 Applications: Used as power connection for movable underground coal mining machines of rated voltage below 3.6/6kV and movable ground mining machines of rated voltage below 8.7/10kV.
No. 171003	Metallic shielding flexible rubber cable with monitoring
No. of Alexandree	Voltage: 8.7/10kV below Standard:MT-818-2009, Q/ILXD31-2009 Applications: Used as power connection for movable underground coal mining transformer or similar equipments of rated voltage below 8. 7/10kV.
No. 171004	Flexible Rubber Cable for Movable Coal Mining Machines
	Voltage: 0.66/1.44kV below Standard:MT-818-2009, Q/ILXD39-2009 Applications: Used as power connection for movable coal mining machines or similar equipments of rated voltage below 0.66/1.14kV.

No. 171005	Metallic Shielding Flexible Rubber Cable for Coal Mining Machines V Itage: 0.66/1.44kV below Standard: MT-818-2009, Q/ILXD39-2009 Applications: Used as power connection for movable coal mining machines or similar equipments of rated voltage below 0.66/1.14kV.
No. 171006	Flexible Rubber Cable for Coal Mining Machines
	Voltage: 1.9/3.3kV below Standard:MT-818-2009, Q/ILXD38-2009 Applications: Used as power connection for coal mining machines or similar equipments of rated voltage below 1.9/3.3kV.
